NARRATIVE CV

SELF INTRODUCTION

Hey I'm Dana,

I like to think I am very determined human being, and that I have a passion for accomplishment. I love being around supportive and positive people and anything that has to do with a person or team achieving something unique.

My focus is to be a successful individual in the field I am studying. Specifically, within the creative media industry. I don't really know where I will end up, I just know that media is the industry I want to be a part of.

I am inspired by the creative industries everywhere, from music to fashion, film and photography, as well as the cultural identities that have built them.

The vision and impact I want to have within my career is to liberate and empower colleagues and clients in whatever project I am a part of. Teamwork is important to me. I believe that cooperation is always more productive.

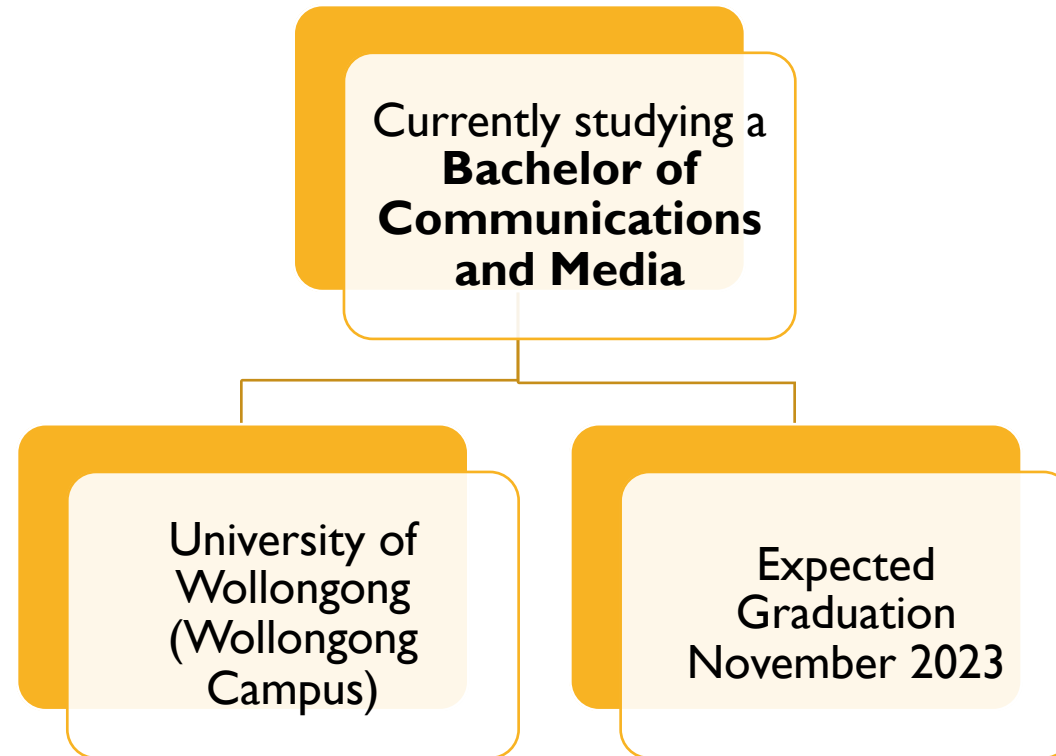

Learning from my leaders and listening to my advisors is something I take into consideration a lot as a growing professional. I think it is important to remember that when difficult situations occur, to be insightful and honorable to those around you in any environment is imperative.
